

# Jose Jesus Sinohui Fernandez

Full Stack Software Developer

Hermosillo, Sonora  
(632) 327-7853  
jose@jjsf.me

## EXPERIENCE

### Hinge Health — Full Stack Software Developer

September 2022 - PRESENT

Working on the product app built with React Native and many services in the backend built with NestJS.

### DreamBox Learning — Full Stack contractor via Encora

January 2020 - August 2022

Worked as a Full Stack Engineer on DreamBox's *Insights* dashboard (Built with Spring and Angular).

- Building a Reporting infrastructure across the whole stack to bring data to educators.
- Coordinating with different teams to arrange consuming data from services which our project depends on to source the data for multiple reports.

At Encora some of my responsibilities were:

- Making our team at DreamBox grow by developing a strong relationship with our client through work.
- Interviewing potential candidates for the open positions in our team.

### Grupo Corasa — Software Developer

July 2018 - September 2020

Worked as a fullstack developer (Java, JavaFX, Node) on Invoicing and Payroll solutions for small to mid-sized Mexican Companies.
